To the Board of Education

Stanberry R-II School District

We have audited the modified cash basis financial statements of the governmental activities and each major fund of Stanberry R-II School District for the year ended June 30, 2024. Professional standards require that we provide you with information about our responsibilities under generally accepted auditing standards (and, if applicable, *Government Auditing Standards* and the Uniform Guidance), as well as certain information related to the planned scope and timing of our audit. We have communicated such information in our letter to you dated July 1, 2024. Professional standards also require that we communicate to you the following information related to our audit.

Significant Audit Findings

Qualitative Aspects of Accounting Practices

Management is responsible for the selection and use of appropriate accounting policies. The significant accounting policies used by Stanberry R-II School District are described in Note A to the financial statements. During the 2023-2024 year, the District implemented GASB Statement No. 96, *Subscription-Based Information Technology Arrangements*. No other new accounting policies were adopted and the application of existing policies was not changed during the year. We noted no transactions entered into by the District during the year for which there is a lack of authoritative guidance or consensus. All significant transactions have been recognized in the financial statements in the proper accounting period.

Certain financial statement disclosures are particularly sensitive because of their significance to financial statement users. The most sensitive disclosure affecting the financial statements was:

The disclosure of the leases of the District in Note M to the financial statements discusses the outstanding debt of the District.

The financial statement disclosures are neutral, consistent, and clear.

Difficulties Encountered in Performing the Audit

We encountered no significant difficulties in dealing with management in performing and completing our audit.

Corrected and Uncorrected Misstatements

Professional standards require us to accumulate all known and likely misstatements identified during the audit, other than those that are clearly trivial, and communicate them to the appropriate level of management. Management has corrected all such misstatements. In addition, none of the misstatements detected as a result of audit procedures and corrected by management were material, either individually or in the aggregate, to each opinion unit's financial statements taken as a whole.

Disagreements with Management

For purposes of this letter, a disagreement with management is a financial accounting, reporting, or auditing matter, whether or not resolved to our satisfaction, that could be significant to the financial statements or the auditor's report. We are pleased to report that no such disagreements arose during the course of our audit.

Management Representations

We have requested certain representations from management that are included in the management representation letter dated December 10, 2024.

Management Consultations with Other Independent Accountants

In some cases, management may decide to consult with other accountants about auditing and accounting matters, similar to obtaining a "second opinion" on certain situations. If a consultation involves application of an accounting principle to the District's financial statements or a determination of the type of auditor's opinion that may be expressed on those statements, our professional standards require the consulting accountant to check with us to determine that the consultant has all the relevant facts. To our knowledge, there were no such consultations with other accountants.

Other Audit Findings or Issues

We generally discuss a variety of matters, including the application of accounting principles and auditing standards, with management each year prior to retention as the District's auditors. However, these discussions occurred in the normal course of our professional relationship and our responses were not a condition to our retention.

Other Matters

We were not engaged to report on management's discussion and analysis, budgetary comparison information, and statistical sections, which accompany the financial statements but are not RSI. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Restriction on Use

This information is intended solely for the use of the administration and the Board of Education of Stanberry R-II School District and is not intended to be, and should not be, used by anyone other than these specified parties.

Reporting on the District as a Whole

The Statement of Net Position and the Statement of Activities

The District's financial transactions as a whole for the year are summarized on the Statement of Net Position and the Statement of Activities. The statements include all assets and liabilities using the modified cash basis of accounting.

Basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. The financial statements are presented on the modified cash basis of accounting, under which revenues are recorded when received rather than when susceptible to accrual, and expenditures are recorded when paid rather than when the fund liability is incurred, except for teachers' salaries as explained in Note A to the financial statements.

These two statements report the District's change in net position. The change in net position is important because it tells the reader that, for the District as a whole, the financial position of the District has improved or diminished. The causes of this change may be the result of many factors, some financial, some not. Non-financial factors include the District's property tax base, facility conditions, required educational programs, and other factors.

In the Statement of Net Position and the Statement of Activities, the District reports governmental activities. Governmental Activities are the activities where most of the District's programs and services are reported including, instruction, support services, operation and maintenance of plant, pupil transport, food service, and student activities.

Reporting the District's Most Significant Funds

Fund financial reports provide detailed information about the District's major funds. District resources are allocated to and accounted for in individual funds based on the purposes for which they are to be spent and the means by which spending activities are controlled. The following types of funds are used by the District:

-Unaudited-

II

General Fund – Accounts for and reports all financial resources not accounted for and reported in another fund.

Special Revenue Fund – Accounts for and reports the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.

Capital Projects Fund – Accounts for and reports financial resources that are restricted, committed, or assigned to expenditures for capital outlay, including the acquisition or construction of capital facilities and other capital assets.

Scholarship Fund – Accounts for and reports donations that are restricted for student scholarships.

The District as a Whole

The Statement of Net Position provides the perspective of the District as a whole. Table 1 provides a summary and comparison of the District's net position for 2024 and 2023:

The Statement of Activities shows the costs of program services and the charges for services and grants offsetting those services. Table 2 (below) shows the total cost of services and the net cost of services. That is, it identifies the costs of these services supported by tax revenues and unrestricted State entitlements.

General Fund Budgetary Highlights

During the course of the year, the District amended the annual operating budget as the Board approved changes. The primary reason for the amendments was minimal fluctuations in actual expenditures made and due to uncertainty of revenues from the State of Missouri Department of Elementary and Secondary Education.

Economic Factors and Next Year's Budget

The Stanberry R-II School District is financially stable. The District is proud of the community support of its public schools. The Board of Education and the District administration have been concerned in recent years with the underfunding of the foundation formula, grants, and legislation action that will affect the district financially. However, the state legislature has made fully funding the formula a mandate and priority for the past several fiscal years. The district hopes that state government continues to support fully funding the formula going forward, because without the full revenue from this fund, the District will struggle in future years.

In recent years, the school district has seen an increase in enrollment. As a result, Stanberry R-II is no longer classified as a "small school district." This change in classification has meant that the major source of state funding is determined through the foundation formula. The formula funding is largely determined by several district factors, including enrollment and attendance, the economic status of the community, and the special education needs of the district. The increase in enrollment is a positive change, however, fluctuations in enrollment can make budgeting for the future very difficult. The district will be proactive and make intentional decisions to meet the needs of the students and staff at Stanberry R-II.

Missouri law is limited in its structure when it comes to schools and generating revenue for building needs. The law restricts Districts to ask taxpayers for additional local revenue. The problem is that the taxpayers are already asked to pay a higher levy than the state minimum and the state performance levy. Back in 2007, the Stanberry community met these challenges and approved a lease purchase agreement via twenty year levy increase of \$1.33. With this commitment being made, it is imperative the assessed valuation of the District continues to grow to assure this debt is properly paid according to schedule. In addition, the District worries about a legislature that has made changes to tax law with no regard to the effect it may have on existing debts of public entities, like Stanberry R-II.

In conclusion, the District has committed itself to financial excellence. The District's system of financial planning, budgeting and internal financial controls are sound. The District plans to continue its sound financial management to meet the challenges of the future.

INDEPENDENT AUDITORS' REPORT

To the Board of Education
Stanberry R-II School District
Stanberry, Missouri

Report on the Audit of the Financial Statements

Opinions

We have audited the accompanying modified cash basis financial statements of the governmental activities and each major fund of the Stanberry R-II School District as of and for the year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Stanberry R-II School District basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities and each major fund of the Stanberry R-II School District, as of June 30, 2024, and the respective changes in modified cash basis financial position for the year then ended in accordance with the modified cash basis of accounting described in Note A.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Stanberry R-II School District, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Emphasis of Matter - Basis of Accounting

We draw attention to Note A of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the modified cash basis of accounting described in Note A, and for determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Stanberry R-II School District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and *Government Auditing Standards*, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Stanberry R-II School District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Stanberry R-II School District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Matters

Other Information

Management is responsible for the other information included in the annual report. The other information comprises the management's discussion and analysis, budgetary comparison information, and statistical sections but does not include the basic financial statements and our auditors' report thereon. Our opinions on the basic financial statements do not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the basic financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the basic financial statements, or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 10, 2024, on our consideration of the Stanberry R-II School District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Stanberry R-II School District's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

STANBERRY R-II SCHOOL DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
JUNE 30, 2024

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The District's accounting policies conform to the modified cash basis of accounting, which is a characteristic of local governmental units of this type.

Financial Reporting Entity

The District is organized under the laws of the State of Missouri and is a primary government, which is governed by an elected seven-member board. The District is not financially accountable for any other organization, nor is it a component unit of any other primary governmental unit.

Basis of Presentation

Government-Wide Financial Statements

The Statement of Net Position and the Statement of Activities display information about the reporting government as a whole, excluding fiduciary activities. They include all funds of the reporting entity. The statements present governmental activities generally financed through taxes, intergovernmental receipts, and other non-exchange transactions.

Fund Financial Statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be a separate accounting entity. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, fund balance, receipts, and disbursements. The District has only governmental funds. The governmental funds of the District are all considered major funds by the Department of Elementary and Secondary Education.

The funds presented in the accompanying basic financial statements include all funds established under Missouri Revised Statutes and controlled by the Board of Education. The purpose of each fund is:

General Fund: Accounts for disbursements for non-certified employees, school transportation costs, operation of plant, fringe benefits, student body activities, community services, the food service program, and any disbursements not accounted for in other funds.

Special Revenue Fund: Accounts for disbursements for certified employees involved in administration and instruction, and includes receipts restricted by the State for the payment of teacher salaries and taxes allocated to this fund based on the District's tax levy.

Capital Projects Fund: Accounts for taxes and other receipts restricted, committed, or assigned for acquisition or construction of major capital assets, and other capital outlay as defined by State of Missouri statutes.

Scholarship Fund: Accounts for donations and other receipts restricted for scholarships paid out to students of the District.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Basis of Accounting

The government-wide Statement of Net Position and Statement of Activities and the fund financial statements are presented using the modified cash basis of accounting. This basis recognizes assets, liabilities, net position/fund balance, receipts, and disbursements when they result from cash transactions. Also, salaries for teachers are recorded as expenditures paid in the fiscal year in which the obligation under the salary contracts are fulfilled by the teachers, even though a portion of such salaries are not paid until July and August of the following fiscal year. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

As a result of the use of the modified cash basis of accounting, certain assets and their related revenues (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and their related expenditures (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

If the District utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

Capital Outlay

General fixed assets are recorded as disbursements in the Capital Projects Fund at the time the invoice for the capital item is paid.

Compensated Absences

Vacation time, personal days, and sick leave are considered as disbursements in the year paid. Sick leave amounts unused and which are vested in the employee are payable upon termination.

Long-Term Debt

Long-term debt arising from cash transactions of the governmental funds is not reported in the government-wide financial statements or the fund financial statements, which is consistent with the modified cash basis of accounting. The debt proceeds are reported as other financing sources and payment of principal and interest are reported as disbursements.

Teachers' Salaries

The salary payment schedule of the District for the 2023-2024 school year requires the payment of salaries for a twelve-month period. Consequently, the July and August, 2024, payroll checks are included in the financial statements as disbursements in the month of June. This practice has been consistently followed in previous years.

Pooled Cash and Investments

The District maintains a cash and temporary investment pool that is available for use by all funds. Investments of the pooled accounts may consist primarily of certificates of deposit and U.S. Government securities, carried at cost. Interest income received is allocated to contributing funds based on cash and temporary investment balances.

NOTE A - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Equity Classification

In the government-wide financial statements, net position is classified in two components as follows:

Restricted net position -- Consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws and regulations of other governments; or (2) law through constitutional provisional or enabling legislation.

Unrestricted net position -- All other net position that does not meet the definition of "restricted."

It is the District's policy to first use restricted net position prior to the use of unrestricted net position when disbursements are made for purposes for which both restricted and unrestricted net position are available.

In the fund financial statements, governmental funds report aggregate amounts for five classifications of fund balances based on constraints imposed on the use of these resources as follows:

Non-spendable fund balance -- This classification includes amounts that cannot be spent because they are either a) not in spendable form or b) legally or contractually required to be maintained intact.

Restricted fund balance -- This classification reflects the constraints imposed on resources either a) externally by creditors, grantors, contributors, or laws and regulations of other governments; or b) imposed by law through constitutional provisions or enabling legislations.

Committed fund balance -- These amounts can only be used for specific purposes pursuant to constraints imposed by formal resolutions of the Board of Education -- the government's highest level of decision making authority. Those committed amounts cannot be used for any other purpose unless the Board of Education removes the specified use by taking the same type of action imposing the commitment.

Assigned fund balance -- This classification reflects the amounts constrained by the District's "intent" to be used for specific purposes, but are neither restricted nor committed. Assigned fund balances include all remaining amounts (except negative balances) that are reported in the governmental funds, other than the General Fund, that are not classified as non-spendable and are neither restricted nor committed.

Unassigned fund balance -- This fund balance is the residual classification for the General Fund. It is used to report negative fund balances in other governmental funds.

In circumstances when a disbursement is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is depleted in the order of restricted, committed, assigned, and unassigned.

Program Receipts

Amounts reported as program receipts include 1) charges to students or others for goods, services, or privileges provided, 2) operating grants and contributions, and 3) capital grants and contributions. All other governmental receipts are reported as general receipts. All taxes are classified as general receipts even if restricted for a specific purpose.

NOTES TO THE FINANCIAL STATEMENTS

NOTE B - TERMINATION BENEFITS

The District does not offer formal early retirement benefits. The Board of Directors from time to time will grant termination benefits to exiting employees of the District on a case by case basis. No such benefits were paid during the year.

NOTE C - CASH AND CASH EQUIVALENTS

State statutes require that the District's deposits be insured or collateralized in the name of the District by the trust department of a bank that does not hold the collateralized deposits. As of June 30, 2024, all bank balances on deposit are entirely insured or collateralized with securities.

Interest Rate Risk

Interest rate risk is the risk that changes in interest rates will adversely affect the fair value of an investment. The District has a formal investment policy that minimizes the risk that the market value of securities in the portfolio will fall due to changes in general interest rates by structuring the investment portfolio so that securities mature to meet cash requirements for ongoing operation, thereby avoiding the need to sell securities on the open market prior to maturity and investing operating funds primarily in shorter term securities.

NOTE D - INVESTMENTS

Investments of the District as of June 30, 2024, are as follows:

Investment Type	Maturity	Amount
Certificates of deposit	12/1/2024 - 2/23/2025	\$ 1,000,000

Certificate of Deposit

Certificates of deposit are classified as investments but are considered deposits for custodial risk determination. State statutes require that the District's deposits be collateralized in the name of the District by the trust department of a bank that does not hold the collateralized deposits. As of June 30, 2024, all certificates of deposit are entirely insured or collateralized with securities.

NOTE E - RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; injuries to employees; and natural disasters. The District maintains commercial insurance to protect itself from such risks.

NOTE F - TAXES

Property taxes attach as an enforceable lien on property on January 1. Taxes are levied on November 1 and payable by December 31. The county collects the property tax and remits it to the District.

The assessed valuation of the tangible taxable property for the calendar year 2023 for the purposes of local taxation was:

Real estate:		
Residential	\$	13,098,630
Agricultural		4,918,710
Commercial		4,176,140
Personal property		12,575,943

NOTE G - RETIREMENT PLAN

The District participates in the Public School Retirement System and Public Education Employee Retirement System (PSRS and PEERS). The financial statements of the District were prepared using the modified cash basis of accounting. Therefore, member and employer contributions are recognized when paid and the District's net pension liability, deferred outflows and inflows of resources related to pensions are not recorded in these financial statements.

General Information about the Pension Plan - The Public School Retirement System of Missouri (PSRS)

Plan Description - PSRS is a mandatory cost-sharing multiple employer retirement system for all full-time certificated employees and certain part-time certificated employees of all public school districts in Missouri (except the school districts of St. Louis and Kansas City) and all public community colleges. PSRS also includes certificated employees of PSRS, Missouri State Teachers' Association, Missouri State High School Activities Association, and certain employees of the state of Missouri who elected to remain covered by PSRS under legislation enacted in 1986, 1987, and 1989. The majority of PSRS members are exempt from Social Security contributions. In some instances, positions may be determined not to be exempt from Social Security contributions. Any PSRS member required to contribute to Social Security comes under the requirement of Section 169.070(9) RSMo, known as the "two-thirds statute." PSRS members required to contribute to Social Security are required to contribute two-thirds of the approved PSRS contribution rate and their employer is required to match the contribution. The members' benefits are further calculated at two-thirds the normal benefit amount. An Annual Comprehensive Financial Report ("ACFR") can be obtained at www.psrs-peers.org.

NOTE G - RETIREMENT PLAN (Continued)

Benefits Provided - PSRS is a defined benefit plan providing retirement, disability, and death/survivor benefits. Members are vested for service retirement benefits after accruing five years of service. Individuals who (a) are at least age 60 and have a minimum of five years of service, (b) have 30 years of service, or (c) qualify for benefits under the "Rule of 80" (service and age total at least 80) are entitled to a monthly benefit for life, which is calculated using a 2.5% benefit factor. Actuarially age-reduced benefits are available for members with five to 24.9 years of service at age 55. Members who are younger than age 55 and who do not qualify under the "Rule of 80" but have between 25 and 29.9 years of service may retire with a lesser benefit factor. Members that are three years beyond normal retirement can elect to have their lifetime monthly benefits actuarially reduced in exchange for the right to also receive a one-time partial lump sum (PLSO) payment at retirement equal to 12, 24, or 36 times the Single Life Benefit Amount. A Summary Plan Description detailing the provisions of the plan can be found on PSRS' website at www.psr-peers.org.

PSRS Contributions - PSRS members were required to contribute 14.5% of their annual covered salary during fiscal years 2022, 2023, and 2024. Employers were required to match the contributions made by employees. The contribution rate is set each year by the PSRS board of Trustees upon the recommendation of the independent actuary within the contribution restrictions set in Section 169.030 RSMo. The annual statutory increase in the total contribution rate may not exceed 1% of pay.

General Information about the Pension Plan - The Public Education Employment Retirement System of Missouri (PEERS)

Plan Description - PEERS is a mandatory cost-sharing multiple employer retirement system for all public school district employees (except the school districts of St. Louis and Kansas City), employees of the Missouri Association of School Administrators, and community college employees (except the Community College of St. Louis). Employees of covered districts who work 20 or more hours per week on a regular basis and who are not contributing members of the Public School Retirement System of Missouri (PSRS) must contribute to PEERS. Employees of PSRS who do not hold Missouri educator certificates also contribute to PEERS. PEERS was established as a trust fund by an Act of the Missouri General Assembly effective October 13, 1965. Statutes governing the System are found in Sections 169.600-169.715 and Sections 169.560-169.595 RSMo. The statutes place responsibility for the operation of PEERS on the Board of Trustees of the Public School Retirement System of Missouri. An Annual Comprehensive Financial Report ("ACFR") can be obtained at www.psr-peers.org.

The arrangement includes annual licensing and maintenance fees, which are subject to change. The arrangement term is for a period of two years, with an automatic renewal period of one year each year, and is cancellable with 60 days notice by either party. During the year ended June 30, 2024, the District paid \$7,889 to Lumen Touch, LLC.

NOTE Q - PRIOR PERIOD ADJUSTMENT

During the year ended June 30, 2024, the District made allowable reallocations of grant expenditures in prior years, which changed original ending fund balances for those years. The changes carried forward into the beginning balances for the 2023-2024 fiscal year due to necessary transfers between funds. The overall ending net position for the District was not affected.

The effects of these adjustments on individual funds are as follows:

	General Fund	Capital Projects Fund
Beginning balance, July 1, 2023	1,754,437.73	73,485.15
Prior period adjustment	73,485.15	(73,485.15)

STANBERRY R-II SCHOOL DISTRICT
NOTES TO THE BUDGETARY COMPARISON SCHEDULES
YEAR ENDED JUNE 30, 2024

Budgets and Budgetary Accounting

The District follows these procedures in establishing the budgetary data reflected in the financial statements:

- 1 In accordance with Chapter 67, RSMo, the District adopts a budget for each fund.
- 2 Prior to July, the Superintendent submits to the Board of Education a proposed budget for the fiscal year beginning on the following July 1. The proposed budget includes estimated receipts and proposed disbursements for all funds. Budgeted disbursements cannot exceed beginning available monies plus estimated receipts for the year.
- 3 A public hearing is conducted to obtain taxpayer comments. Prior to its approval by the Board of Education, the budget document is available for public inspection.
- 4 Prior to July 1, the budget is legally enacted by a vote of the Board of Education.
- 5 Subsequent to its formal approval of the budget, the Board of Education has the authority to make necessary adjustments to the budget by formal vote of the Board. Adjustments made during the year are reflected in the final budget information included in the financial statements. Budgeted amounts are as originally adopted, or as amended by the Board of Education. Individual amendments were not material to the original appropriations, which were amended.
- 6 Budgets for District funds are prepared and adopted on the modified cash basis (budget basis).

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS*

To the Board of Education
Stanberry R-II School District
Stanberry, Missouri

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the modified cash basis financial statements of the governmental activities and each major fund of Stanberry R-II School District as of and for the year then ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued a report thereon dated December 10, 2024.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We identified a certain deficiency in internal control, described in the accompanying schedule of findings and questioned costs, as item 2024-001 that we consider to be a significant deficiency.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Stanberry R-II School District's Response to Findings

Government Auditing Standards requires the auditor to perform limited procedures on the District's response to findings identified in our audit and described in the accompanying schedule of findings and questioned costs. The District's response was not subjected to the other auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on the response.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

SCHEDULE OF FINDINGS AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2024

Section II -- Financial Statement Findings

SIGNIFICANT DEFICIENCY

2024-001 Segregation of Duties

Criteria: Duties should be segregated so that no one employee has access to physical assets and the related accounting records, or to all phases of a transaction.

Cause: Because of a limited number of available personnel, it is not always possible to adequately segregate certain incompatible duties so that no one employee of the District has access to both physical assets and the related accounting records, or to all phases of a transaction. The District currently has one full-time bookkeeper to handle the accounting needs of the District. There are some mitigating controls in place but it is not possible to have segregation in all areas.

Condition: Bookkeeper as a primary function, enters information into the system and is also responsible for reconciliation creating a conflict of duties. Administration has the ability to add vendors to the system and also approve them which is conflict of segregation of duties.

Effect: Risk is present that errors or irregularities in amounts that would be material to the basic financial statements may occur and not be detected within a timely period by employees in the normal course of performing their assigned functions.

Recommendation: Duties should be segregated so that no one employee has access to both physical assets and the related accounting records, or to all phases of a transaction. Due to limited resources and personnel, management may not be able to achieve a proper segregation of duties.

Management Response: The limited number of available personnel prohibits segregation of incompatible duties and the District does not have the resources to hire additional accounting personnel.

2023-001 Segregation of duties

Auditors' Recommendation:

We realize that because of limited resources and personnel, management may not be able to achieve a proper segregation of duties; however, our professional standards require that we bring the lack of segregation of duties to your attention in this report.

Status:

Uncorrected

2023-002 Payroll reporting

Auditors' Recommendation:

We recommend that the District review its reconciliation and monitoring processes and update them to create an effective control over payroll reporting.
